ABOUT US

 We work on diverse projects ranging from simple information systems and websites to complex enterprise type architectures, desktop or web-enabled applications, traditional n-tier and service oriented architectures. We follow three main rules to get to our goals: do it on-time, do it within scope and offer the best services.

OUR MISSION

Our mission combines work and talent. We seek to achieve extraordinary results by helping our clients make distinctive improvements. How do we do it? By leveraging best-of-breed technology and building a great company that is profitable and appeals to, helps develop and retains exceptional people.

Our passion for what we do led us here. Our vision guides our business every day to provide one of the best IT consulting and software development services while taking care of our people and honoring our values.

OUR VISION

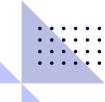

INTRODUCTION

A Point of Sale (POS) software application streamlines sales transactions, inventory management, customer data, and reporting. It integrates hardware and software to handle transactions, track inventory, and manage customer records, catering to all business needs for sales, invoices, and daily activities.

Technical Stack -

- Java 1.8
- React 16.13.1
- SpringBoot Framework 2.2.0
- MySQL 5.6
- Application Server Tomcat 9

KEY FEATURES

Sales Processing: Manages sales, returns, and payments (cash, cards, mobile).

Inventory Management: Tracks stock levels, turnover, and low stock alerts; assists with ordering.

Customer Management: Maintains profiles, tracks purchases, manages loyalty programs, and supports marketing.

Reporting and Analytics: Offers reports on sales, inventory, productivity, and finances for decision-making.

Employee Management: Handles schedules, tracks hours, and manages permissions and roles.

Efficiency: Accelerates transactions and minimizes errors.

Accuracy: Enhances inventory and financial precision.

Customer Experience: Offers faster service and personalized interactions.

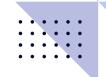

Insights: Delivers valuable business insights through reports and analytics.
