SCHOOL MANAGEMENT SYSTEM
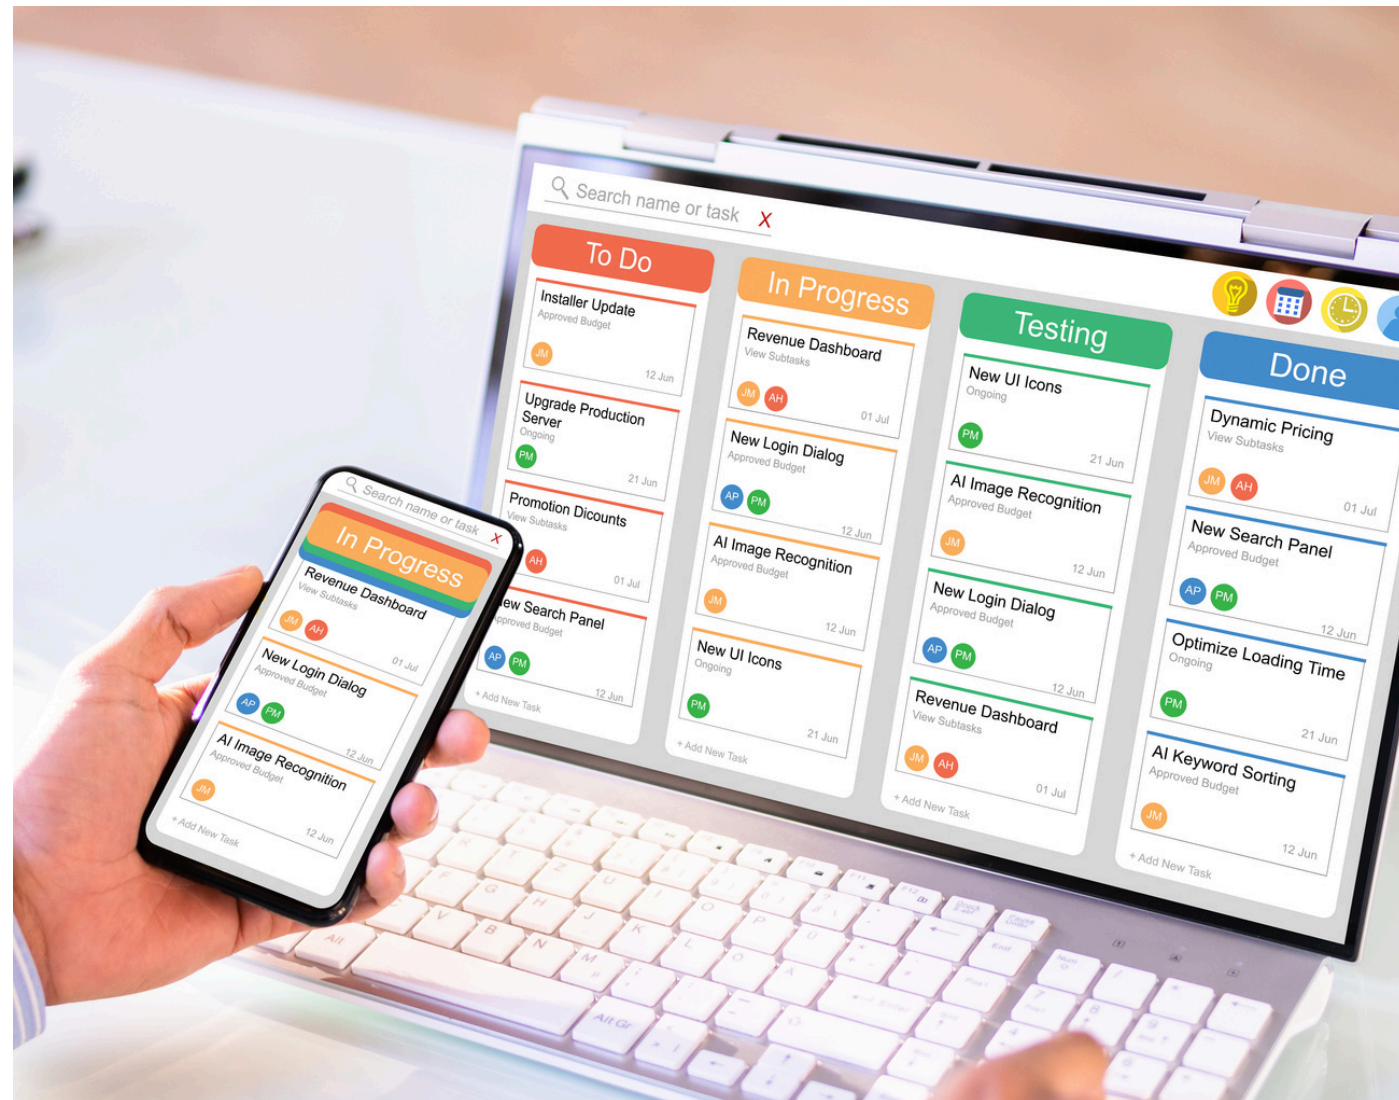

Presentation

Project Overview

This is a School Management System application which caters to the business owner's requirements for adding new students,new teachers, students time-table, events, student's notification, teacher's notification and day to day activity and its reports as per there business requirements.

Introduction

- **Centralizes data on students, teachers, timetables, and events.**

- **Streamlines management of day-to-day school operations.**

- **Supports notifications and reporting for smooth school functioning.**

- **Tailored for Admin, Teachers, and Students with specific roles.**

Scope

Student Enrollment and Management
Streamlines enrollment with accurate data management for efficient tracking and updates.

Timetable and Event Scheduling
Optimizes creation and management, enabling organized scheduling and resource allocation.

Teacher Management and Assignment
Simplifies teacher management, handles assignments, and optimizes teaching resource use.
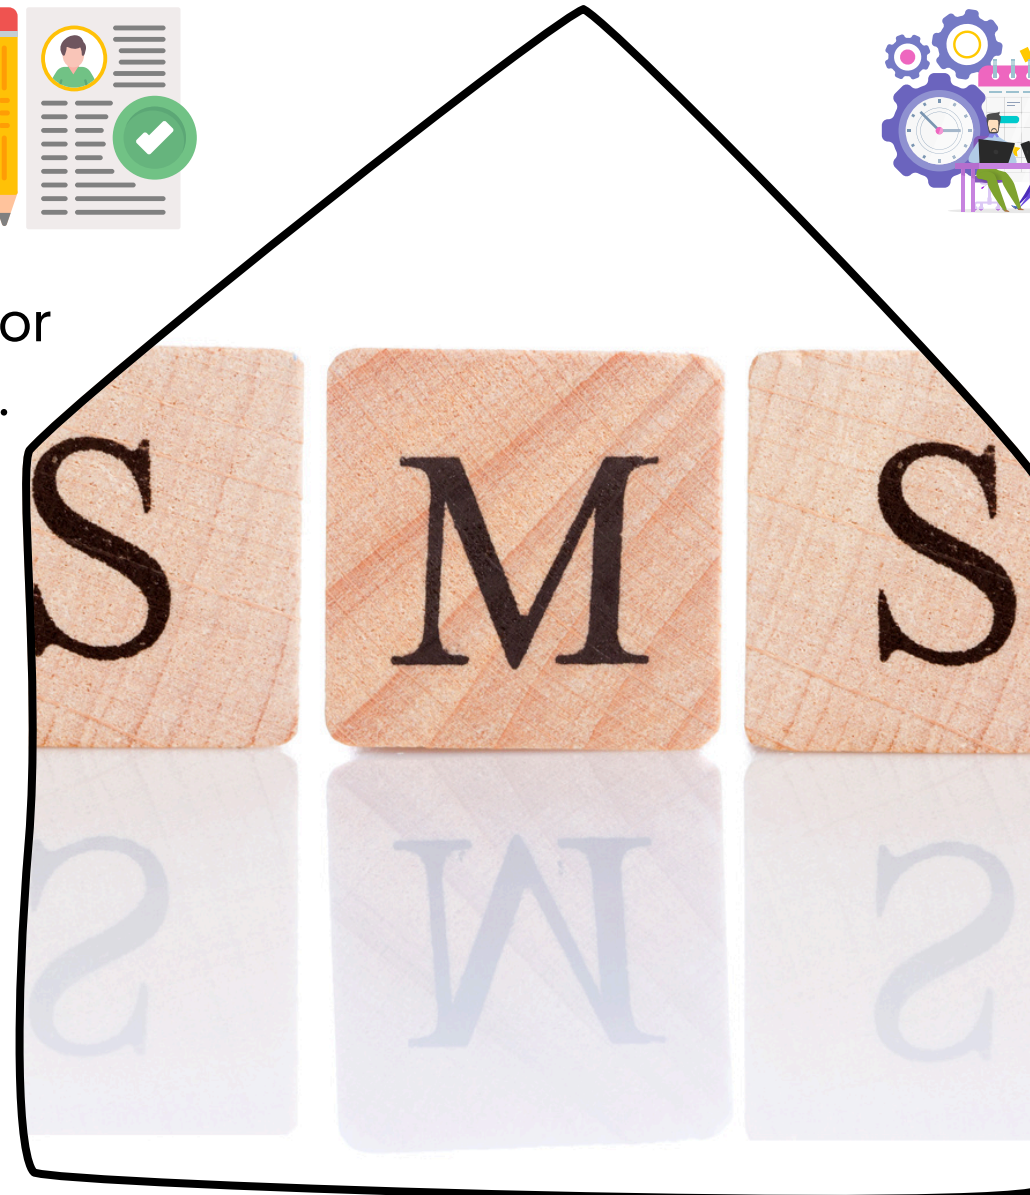

Activity Tracking and Reporting
Monitors daily activities and generates reports for informed decision-making and effective administration.

Notification System
Ensures timely communication of important information to students and teachers.

About SMS

▶ **Enhances and Optimizes Student and Teacher Management.**

▶ **Ensures Efficient Scheduling and notifications.**

▶ **Enhances Data Accuracy and Accessibility.**

▶ **Streamlines School Management Processes.**

Features

- ▶ Student Enrollment and Management
- ▶ Teacher Management and Assignment
- ▶ Timetable and Scheduling Management
- ▶ Event Planning and Management
- ▶ Notification System
- ▶ Role-Based Access Control
- ▶ Activity Logging and Reporting
- ▶ Approval Workflows
- ▶ Data Accuracy and Periodical Reporting

Modules

01 **Dashboard**

02 **Students**

03 **Teachers**

04 **Student's TimeTable**

05 **Events**

06 **Student's Notification**
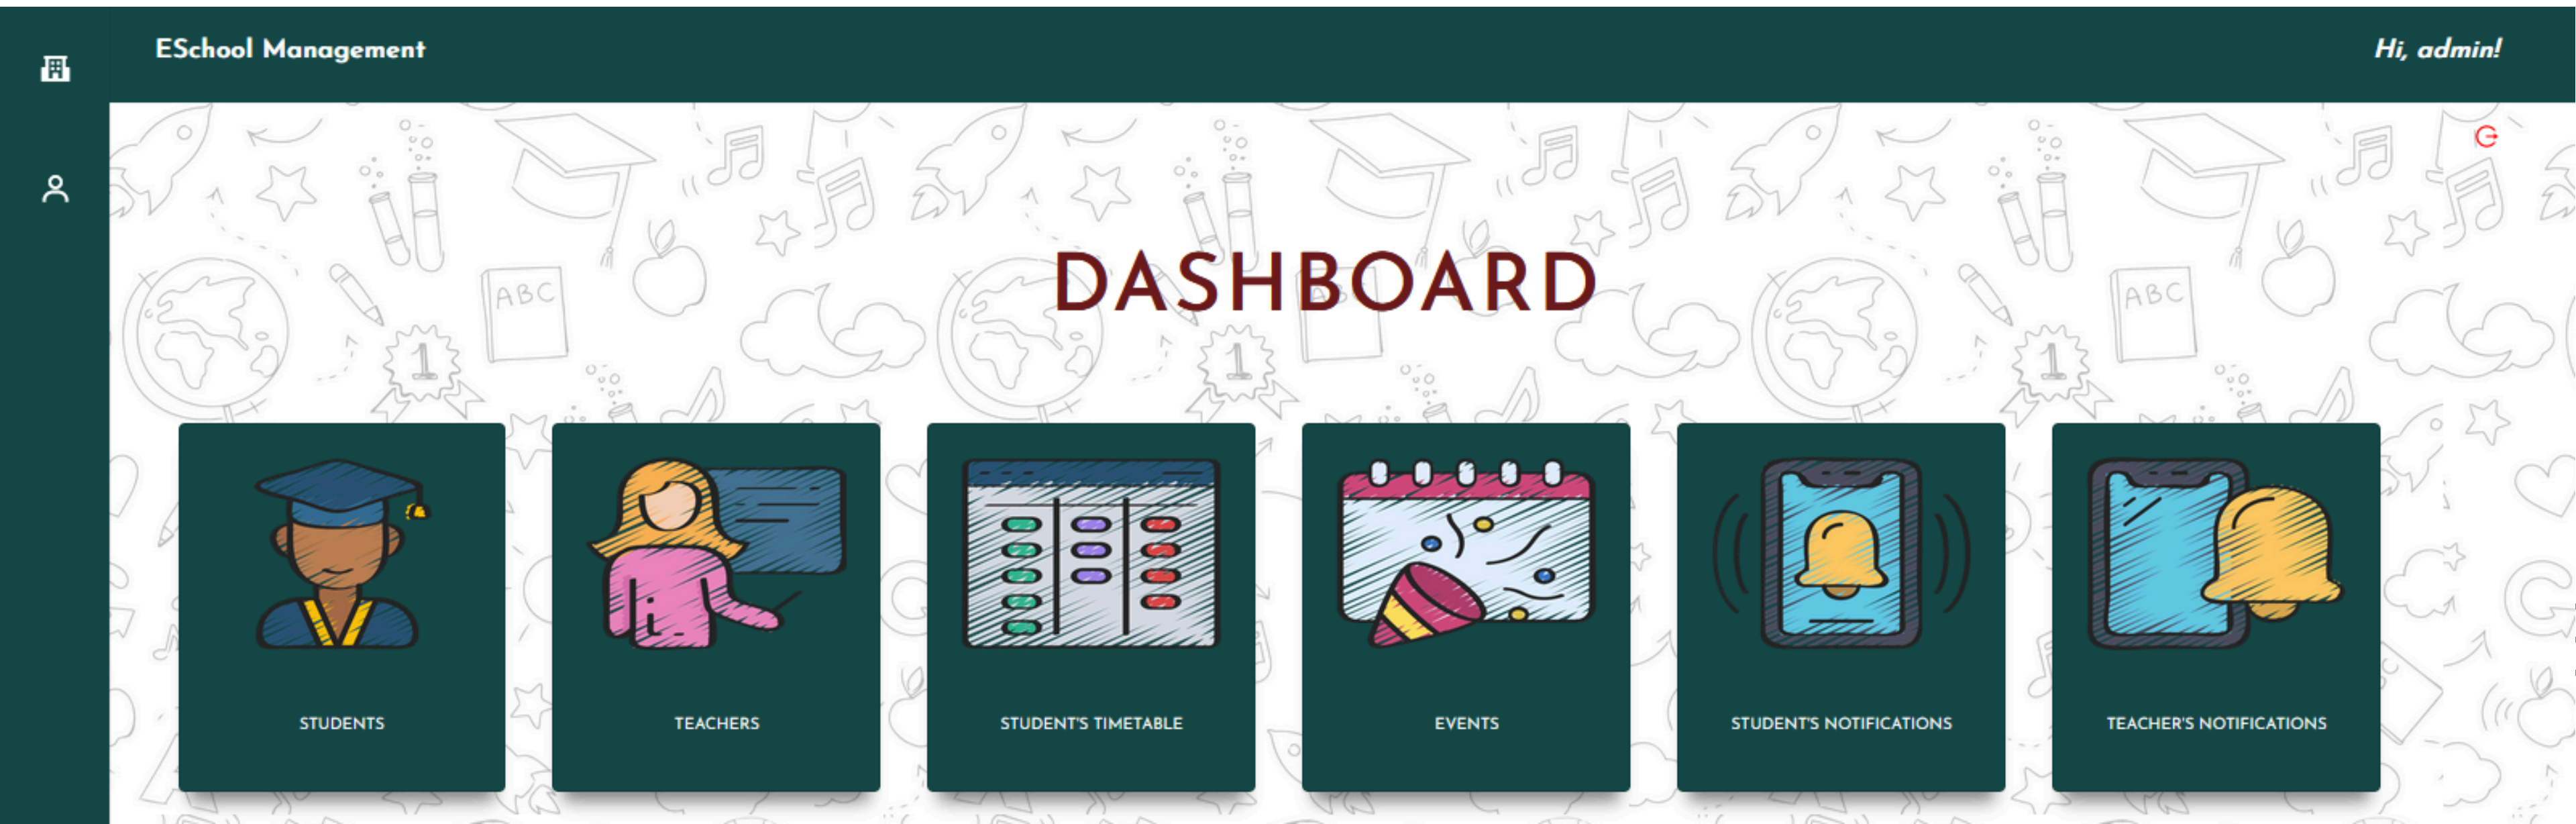

07 **Teacher's Notification**

SCREENSHOTS

Dashboard

- **Dashboard Overview:** The homepage serves as a dashboard, displaying all available modules.
- **Tool Request:** Users can request new tools directly from the homepage.
- **Navigation:** Easily access modules via the navigation bar or directly from the dashboard.

Students

- **Student Profile Creation:** Add all necessary student details.
- **User Account Setup:** Create a unique username and password for the student to access their account.
